

Bee-jay Paiz

PROFESSIONAL SUMMARY

Former educator transitioning to a career in web development. Self-taught programmer using free online resources. Proven track record in previous positions as a reliable and committed team member. Experience with collaborating in a diverse, international workplace, adhering to strict deadlines, and presenting complex ideas to a variety of audiences.

PROJECTS @ github.com/beejathon

[notbadreads](#) | JavaScript, React, React-Router, Firebase, Tailwind

A goodreads clone where users can search a database of books, organize a personal library, write reviews and interact with other users

- Front-end built with React and React Router; styled with Tailwind CSS
- Leverages Google Books API to fetch book data
- Utilizes Firestore to persist user data (personal library, user update feed, reviews, comments, likes)

[Where The Waldos At?](#) | JavaScript, React, Firebase

A photo-tagging app that functions as a game based on the popular series of children's puzzle books

- Front-end built using React, React Hooks, and the React-Menu library to manage the game's state and UI
- Leverages Firestore to store game data and keep track of high scores

[The Croc Pit](#) | Javascript, React, React-Router, Material UI

A mock e-commerce web page for Croc shoes

- Front-end focused single-page-application built using React and React-Router
- Utilizes The Sneaker Database API to fetch and dynamically display products

[Battleship](#) | Javascript, Jest, Webpack

A web browser game based on the popular board game

- Built with Test-Driven-Development as a focus
- Created unit tests using Jest before writing the core functions of the game

[To-do List](#) | Javascript, Webpack, Firebase

A simple web app to create and track projects and tasks

- Developed with focus on OOP and SOLID principles, keeping application logic separate from display/UI
 - Refactored to integrate Firebase services, allowing users to sign in using Google Authentication and persist their data using Firestore backend-as-a-service
