EDUCATION

San Francisco State University

Bachelor of Arts in English: Creative Writing

San Francisco, CA

September 2010 – July 2012

EXPERIENCE

Front End Developer

Galore

April 2023 – Present

London, UK (Remote)

- Translated Figma design into a visually appealing, functional, and responsive front-end Shopify storefront
- Communicated with internal stakeholders to ensure business requirements were met
- Researched Shopify documentation to find solutions to technical issues

Warehouse Operative

Unineed

February 2022 – Present

Glasgow, UK

- Received merchandise and organized warehouse inventory to improve accuracy of stock and product picking
- Created listings for new products on e-commerce platform Magento
- Accurately picked and packed customer orders

Math/ESL Teacher

Edison School

August 2018 – March 2021

Hanoi, Vietnam

- Instructed classes in Algebra I, Geometry, Algebra II, and ESL for secondary and high-school students
- Provided ongoing assessment and feedback on student performance and communicated issues with support staff and parents
- Collaborated with co-teachers to develop and adapt curriculum and share lesson plans

SAT Instructor

International English Education

September 2017 – August 2018

Hanoi, Vietnam

- Instructed classes in SAT and IELTS preparation for secondary and high-school students
- Helped individual students achieve desired exam benchmarks

PROJECTS

Blog API | *mongoDB, Express, React, NodeJS, CSS*

- Developed a REST API backend to serve JSON to two front-ends
- Built with Node/Express using MongoDB as a database
- Cleanly decouples front-end from back-end following Jamstack principles

notbadreads | *JavaScript, React, Firebase, Tailwind CSS*

- Developed a goodreads clone where users can search for books, organize a personal library and interact with other users
- Leverages Google Books API to fetch book data
- Utilizes Firebase backend-as-a-service to persist user data

Where the Waldos At? | *JavaScript, React, Firebase*

- Developed a photo-tagging app that functions as a game based on the popular children's puzzle books
- Front-end built using React, React Hooks, and the React-Menu library to manage game state and UI
- Utilizes Firebase to store game data and track high scores

The Croc Pit | *JavaScript, React, React-Router, Material UI*

- Developed a mock e-commerce site for Croc shoes
- Front-end focused single-page-application built using React and React-Router
- Utilizes The Sneaker Database API to fetch and dynamically display products

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frameworks: React, Node.js, Express, Mongoose, MongoDB, Tailwind CSS, Material-UI, Bootstrap

Developer Tools: Git, VS Code, Jest, Firebase, bash, npm, Webpack
